

RII20715 CERTIFICATE II

IN CIVIL CONSTRUCTION

CIVIL TRAIN
The Training Division of the CCF

// ABOUT CIVIL TRAIN QLD

Civil Train QLD is a nationally certified Registered Training Organisation (RTO), and the training division of the Civil Contractors Federation Queensland Branch (CCF QLD); the peak industry body for the civil construction industry. We have been delivering training to the civil construction industry for more than 15 years and are focused on ensuring our industry is skilled for the future.

Our clients benefit from the fact that we know civil construction training: it's all we do. We offer authentic industry training and believe in training by the industry, for the industry. That is why we work directly with industry to develop and deliver the best training possible; resulting in training that is relevant, efficient and cost effective. What's more is that because we are the training division of CCF QLD, Civil Train QLD has a direct link to engage in strong industry partnerships; a unique point of difference from other RTOs within the industry.

With a focus on customer service, flexibility and professionalism, Civil Train QLD is an industry leader for high quality training within the civil construction industry.

// THE QUALIFICATION

This nationally recognised qualification is for individuals wishing to develop or enhance their proficiency as a civil construction worker.

Certificate II in Civil Construction provides training in practical and technical skills which are required to work in an operational role within the civil construction industry. Operators at this level undertake a prescribed range of tasks using specified practical skills and functional knowledge within a defined context. Workers at this level usually work under supervision.

You will learn how to:

- use small plant and equipment
- use a variety of hand and power tools
- check levels using various types of levelling instruments and equipment
- compact construction materials
- undertake manual excavations and tasks

Civil Train QLD prides itself on flexible delivery and we welcome experienced civil contractors wanting to update their skills.

// STUDYING FOR THIS QUALIFICATION

Certificate II in Civil Construction is conducted as on the job training. This qualification is delivered as a full time traineeship over approximately eighteen months. You may complete the course earlier, depending on your own commitment and the variety of experience you receive in your workplace. The majority of your training will take place on-site for both the theory and practical components.

Our experienced trainers are available to you for training assistance. Site visits will be scheduled approximately every two to three months, during which time your training progress will be monitored and recorded. Trainees will be given a tailored Training Plan upon enrolment, outlining specific units of study. Upon successful completion of all training requirements, trainees will be awarded appropriate Nationally Recognised Certification and Record of Results.

// RECOGNITION OF PRIOR LEARNING (RPL)

Civil Train QLD offers RPL assessment to existing workers to determine the skills and experience which have been acquired in the workplace, through life experience or through other formal or informal learning. You may be able to complete the course of study in less time, with minimal disruption to your work, and in some cases at a lower cost.

The RPL process begins with an interview where additional sources of evidence of your skills and experience may become apparent. Your evidence may include previous or current verified job role experience, prior formal or informal training and even general life experience related to the industry and or the course of study. You should discuss these options with your assessor at the time of the RPL interview.

For further information about RPL and an application kit designed for this qualification, contact your Civil Train QLD representative.

// COURSE STRUCTURE

Successful completion of this qualification will result in the student receiving a Nationally Recognised Certificate. Successful completion is made up of 16 units of competency including:

- ten core units; and
- six elective units of which:
 - at least five (5) must be chosen from electives (listed overleaf); and
 - no more than one (1) may be chosen from elsewhere within this training package, or from another endorsed training package, or from an accredited course.

CIVIL TRAIN
The Training Division of the CCF

// CORE UNITS OF COMPETENCY
