

RII30115 CERTIFICATE III IN SURFACE EXTRACTION OPERATIONS

CIVIL TRAIN
The Training Division of the CCF

// ABOUT CIVIL TRAIN QLD

Civil Train QLD is a nationally certified Registered Training Organisation (RTO), and the training division of the Civil Contractors Federation Queensland Branch (CCF QLD); the peak industry body for the civil construction industry. We have been delivering training to the civil construction industry for more than 15 years and are focused on ensuring our industry is skilled for the future.

Our clients benefit from the fact that we know civil construction training: it's all we do. We offer authentic industry training and believe in training by the industry, for the industry. That is why we work directly with industry to develop and deliver the best training possible; resulting in training that is relevant, efficient and cost effective. What's more is that because we are the training division of CCF QLD, Civil Train QLD has a direct link to engage in strong industry partnerships; a unique point of difference from other RTOs within the industry.

With a focus on customer service, flexibility and professionalism, Civil Train QLD is an industry leader for high quality training within the civil construction industry.

// THE QUALIFICATION

This nationally recognised qualification reflects the role of employees such as production operators in an open cut mine or quarry, who perform tasks involving a broad range of skilled applications in a variety of work scenarios, using some discretion and judgement regarding selection of equipment and services.

During the course of this qualification you will be exposed to both the theory and practical aspects required to prepare you for a career as a surface extraction operator

You will learn how to:

- Identify and assess environmental and heritage concerns
- Apply risk management processes
- Communication in the workplace
- Comply with site work processes/procedures
- Prepare machinery for operations and maintenance of machinery
- Operate machines and attachments

Civil Train QLD prides itself on flexible delivery and we welcome experienced civil contractors wanting to update their skills.

// STUDYING FOR THIS QUALIFICATION

Certificate III in Surface Extraction Operations is conducted as on the job training. This qualification is delivered as a full time traineeship over a nominal period of two years. You may complete the course earlier, depending on your own commitment and the variety of experience you receive in your workplace. The majority of your training will take place on site for both the theory and practical components.

Our experienced trainers are available to you for training assistance. Site visits will be scheduled approximately every two to three months, during which time your training progress will be monitored and recorded. Trainees will be given a tailored Training Plan upon enrolment, outlining specific units of study. Upon successful completion of all training requirements, trainees will be awarded appropriate Nationally Recognised Certification and Record of Results.

// RECOGNITION OF PRIOR LEARNING (RPL)

Civil Train QLD offers RPL assessment to existing workers to determine the skills and experience which have been acquired in the workplace, through life experience or through other formal or informal learning. You may be able to complete the course of study in less time, with minimal disruption to your work, and in some cases at a lower cost.

The RPL process begins with an interview where additional sources of evidence of your skills and experience may become apparent. Your evidence may include previous or current verified job role experience, prior formal or informal training and even general life experience related to the industry and or the course of study. You should discuss these options with your assessor at the time of the RPL interview.

For further information about RPL and an application kit designed for this qualification, contact your Civil Train QLD representative.

// COURSE STRUCTURE

Successful completion of this qualification will result in the student receiving a Nationally Recognised Certificate. Successful completion is made up of 13 units of competency including:

- three core units; and
- ten elective units of which:
 - one (1) must be chosen from Group A; and
 - one (1) must be chosen from Group B
 - at least three (3) must be chosen from Group C
 - no more than 3 may be chosen from Group D
 - no more than two (2) may be chosen from within this training package, or from another endorsed training package, or from an accredited course
